

# PHA Checklist

Ensure you check with the CHHHS [Data Custodian](#) to see if the data you require is available and if there are any retrieval costs involved.

**ATTACH THIS CHECKLIST PHA TO YOUR HARD COPY SUBMISSION**

*If you have been granted a waiver of consent, you may be covered under the Hospital & Health Board's Act (2011) OR you may need to gain a Public Health Act (2005) (PHA) approval.*

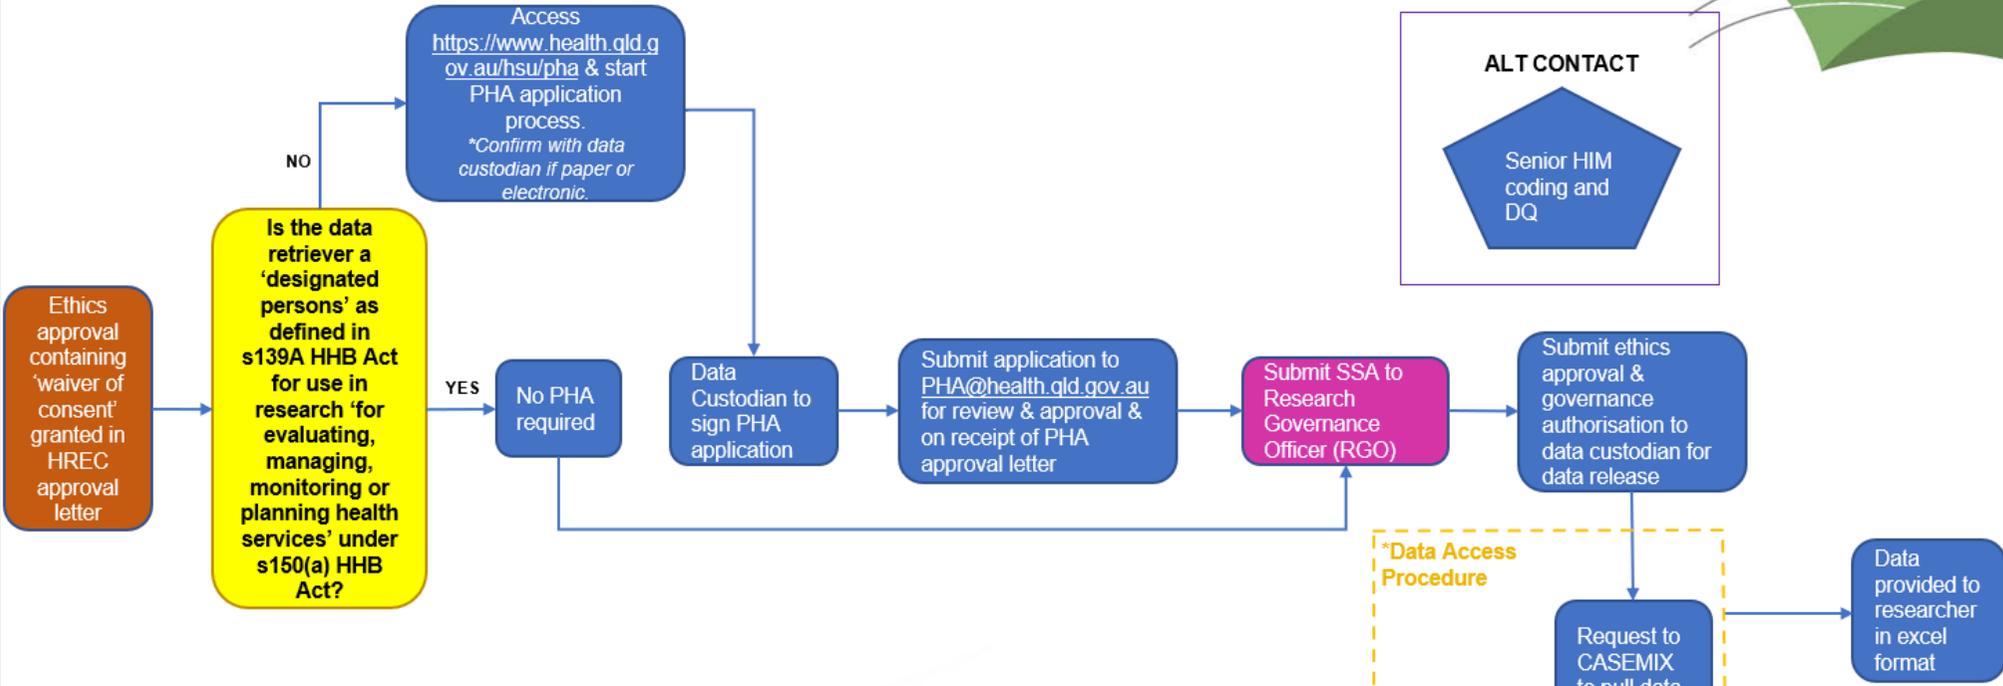

If you are a "designated person" and can confirm that no identifiable 'confidential information' (defined in s139 of the Hospital and Health Board's Act 2011) is being disclosed to any person who is not a 'designated person' (also defined in s139 of that Act) and that each and every disclosure of 'confidential information' to 'designated persons' is for the purpose described in s150 of the Hospital and Health Board's Act 2011, being evaluating, managing, monitoring or planning 'health services' (defined in s150 of that Act) then you would not have to rely on Public Health Act Approval as an exception to the duty of confidentiality.

# Health Related Data Access Process

Pathology Queensland request that their General Manager review and approve all requests for use of AUSLAB/Pathology information, including samples for the purposes of and activity that is separate from routine clinical care, regardless of where the information will be obtained from (e.g. ieMR record). No other person or role is an authorised data custodian for AUSLAB/Pathology information. Please contact the Executive Director Medical Services Pathology Queensland as a courtesy to notify intent to mine data from ieMR asking if they require further applications: [pathqldclients@health.qld.gov.au](mailto:pathqldclients@health.qld.gov.au)
